DETAILED ACTION

Applicant's Response Dated June 7, 2004

1. In the Response filed June 7, 2004, claims 14-32 were canceled and claims 33-50 were added.
2. Claims 33-50 are pending. An action on the merits of claims 33-50 is contained herein below.
3. The objection to claim 32 has been rendered moot in view of applicant's response dated June 7, 2004.
4. The rejection of claims 14-31 under 35 U.S.C. 112, first paragraph, has been rendered moot in view of applicant's response dated June 7, 2004.
5. The rejection of claims 14-31 under 35 U.S.C. 112, second paragraph, has been rendered moot in view of applicant's response dated June 7, 2004.

Claim Objections

6. Claim 50 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The compounds recited in claim 50 do not contain a phosphorylating moiety or a solid support attached to the 5'-oxygen as required by claim 33.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

8. Claims 33-49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Newly added claims 33-49 require the attachment of variable **A** to the 5'-oxygen. This newly added limitation was not disclosed in the specification as originally filed.

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 33-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The variable **R** is defined by the claims as "a protecting group or is not present". The variable **R** renders claims wherein the compound has not been distinctly set forth indefinite. The variable **R** is attached to a -CH- moiety at the 2'- or 3'-position. Since the -CH- moiety does not contain a reactive site, it is unclear what is "protected". Furthermore, when **R** is not present the structure is

incomplete and incorporates a dangling valence. In the absence of a chemical name or complete structural formula, one of ordinary skill in the art would not be apprised of the metes and bounds of instantly claimed compounds.

Conclusion

11. Claims 33-50 are pending. Claims 33-49 are rejected. Claim 50 is objected to. No claims allowed.

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
